

Grassi's Manufacturing & Distribution professionals have a proven record of providing exceptional service and proactive advice to a variety of manufacturers and distributors. With extensive knowledge of the issues and challenges these organizations face, our advisors draw from deep experience to help clients make business decisions with the most confidence.

Understanding the vital importance of the M&D industry to our economy and our region, our M&D practice is dedicated to the growth of the industry and the sustainability of our clients' business success.

Services offered:

- Business Advisory
- Audit and Accounting
- Tax Compliance and Consulting
- CFO Advisory and Accounting Management
- Forensic, Litigation Support and Valuations
- Technology Consulting

Our M&D clients include:

- Food & Beverage
- Building Materials
- Pharmaceuticals
- Electronics and Technology
- High-tech and Defense
- Retail and Apparel

Additionally, our M&D advisors are at the forefront of thought leadership through participation in industry associations and research initiatives. We pass our knowledge of industry developments on to our clients and help them implement strategies to manage change, mitigate risk and improve operational efficiencies.

Whether advising on environmental issues, technology, cost containment, supply chain management, divestitures or other business challenges, our M&D professionals provide a clear perspective on how to succeed in today's complex, competitive and evolving marketplace.
